SCIENCE EXAMINATION office@mavipamumbai.org

We are familiar in using science in the form of technology in our homes. viz. Electrical Iron. Fan, Refrigerator, T.V., Radio, Computer, Washing Machine, Mixer, Food Processor, Telephone etc. The use of science and technology is going to increase further in another 15 to 20 years time. In such circumstances, our subject of science should not be imperfect. We must be friendly with science. Why not get acquainted with science through interesting experiments? It is for this reason, Marathi Vidnyan Parishad is organizing examinations for std.s VII, VIII & IX students in English. The examinations are named as Primary, Secondary and Final. You are familiar with examinations for languages, Art, Maths. and Drawing etc. We are also arranging these examination with a little difference. We are going to do it as follows.

The Primary, Secondary and Final examinations are meant for students of std.s VII, VIII & IX respectively. However even students of higher standards or adults can appear to these examinations.

Mathematics, Physics, Chemistry, Biology, Science in daily life, Science problems, stories in science, Book review, and simple experiments to be done at home, Small projects are included in these books. You will get printed book by post at your house. This information is not given in any textbooks, but you will not find it hard to understand. This examination will enhance your liking for science so also it gives information on the discoveries made in ancient India. We are giving question paper and answer books in these booklet. You have to write the answers to the question paper in the answer book and send those pages to us. You can refer to the booklet while answering the questions. So that questions of copying will not arise. We will be happy to see that you have studied the booklet. Do the experiments given and inform us of their results. Even if the experiment has failed, do not dishearten because who is successful in the first attempt? Even Nobel laureates make mistake; so you need not be afraid to inform us the failure. You have to complete the project, experiments and solve the problems. This part is very important and if you don't solve them you will fail in the examination. Send us your answer papers. The answers books will be examined and you will be informed of the marks you get for the answers as well as your mistakes will be communicated to you. The answer books with comments will be delivered to you in May next year. Those who get at least 40% marks will get a certificate, So also first five students in whole of Maharashtra will get prizes. First prize is Rs. 700/-, second prize Rs. 600/-, third prize Rs. 500/-.

The prizes will be half in cash and half in the form of books. The prizes are for students of appropriate standards alone and not for adults or elderly students.

Once you pay money, you will get booklets by post, by 30th July and you have to send us answer books by 31st December, 2011.

The examination fees for the whole year is for Primary Rs. 225/-, Secondary Rs. 275/- and Final Rs. 325/-

The fees can be sent by money orders, or Demand draft in the name of "Marathi Vidnyan Parishad" at Vidnyan Bhavan, V. N. Purav Marg, Sion-Chunabhatti, Mumbai 400 022. (Students from Mumbai can send a cheque or deposit in cash in the office). Students should inform their full name parent's full name, full address (including pin code no.) residential phone no. and the name of the school with its address and standard. Adults can drop school name, and should communicate the relevant information.

There are no private classes or tuitions for these examinations. This is the novelty of this examination. These examinations will increase your curiosity and will also help in understanding science in higher standards.

Parishad will have all the rights about the decisions taken.
